STOP *for* 5

Before you begin this debrief, do the following:

- Thank everyone
- Ask if everyone is okay
- State that there will be a 5-minute debrief

The goal of this 5-minute team debrief is to improve the quality of patient care; it is not a blaming session. Participation is welcome, not compulsory.

- **SUMMARY** of the case
- **THINGS** that went well
- **OPPORTUNITIES** to improve
- **POINTS** to action & responsibilities

This is based on the STOPS framework developed by
Drs Craig Walker, Laura McGregor & Sara Robinson
